THE PROVIDENCE DIRECTORY

AND

RHODE ISLAND STATE BUSINESS DIRECTORY

FOR THE YEAR COMMENCING APRIL 1

1936

TERCENTENARY EDITION

VOLUME XCVI

Containing

Alphabetical Section (Page 381). Gives names, occupations and addresses of men and women eighteen years old or over, also all business houses. Wives' names are listed immediately after that of the husbands, enclosed in parentheses. Dates of deaths during the previous year are given, and where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

Business Directory (Page 209) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Reference Department (Page 65) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Map (opposite) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Street Directory (Page 33) A complete list of Streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there.

Miscellaneous Information (Page 13) Organization of City Departments, giving officers—Post Office branches—Parcel Post zones and rates—State officers and departments—U. S. officers and departments—Courts—Population tables—Calendar, etc.

1636 RHODE ISLAND TERCENTENARY 1936

BY

HORACE G. BELCHER SECRETARY RHODE ISLAND TERCENTENARY COMMISSION

Rhode Island and Providence in particular, celebrates this year the three-hundredth anniversary of the most momentous event in its history—yet no one knows the date on which it happened!

It was in either May or June 1636 that Roger Williams, driven from England for his religious opinions, banished from Salem for his insistence on preaching his own views, forced to leave his first settlement at what now is the Phillipsdale section of East Providence on receiving warning that he was yet within the territory claimed by Plymouth Colony, took an Indian dugout and with one companion, Thomas Angell, his boy servant, paddled around the Tockwotton bluff and landed at a spring on the banks of the Moshassuck River. Here he remained, obtaining through barter a tract of land from his Indian friends the sachems Canonicus and Miantonomi, joint rulers of the Narragansetts.

"The new settlement, from the freedom and vacancy of the place and many other Provinces of the Most High and Only Wise, I called Providence."

Williams took the lot including the spring and assigned to those who soon followed him, ten-acre lots extending eastward from the river, over the hill. The Roger Williams Spring still flows within a small park at 242 North Main street given the city in 1930 by Judge J. Jerome Hahn in memory of his father. By the Proprietor's Grant of 1721, "liberty is reserved for the inhabitants to fetch water at said spring forever."

The site of Williams' house was in the rear of the present dwelling at 233 North Main street, nearly opposite the spring and on the north side of Howland street. A tablet on the house reads: "A few rods east of this house stood the house of Roger Williams, founder of Providence, 1636."

He was buried on his own lot, in the rear of his house, at what now is the yard of the Sullivan Dorr house, 109 Benefit street, corner of Bowen street. His remains have been removed to a tomb in North Burial Ground, the city's oldest public cemetery (1700) awaiting erection of a suitable memorial.

Among the first comers to Providence were William Harris, John Smith, the miller who established the first mill on North Main street near Mill street, "at the lower falls of the Moshassuck;" Francis Wickes, Joshua Verin a corder from Salem, and Thomas Angell. They were soon joined by William Arnold, tailor, with his son Benedict and his son-in-law, William Carpenter, who later became the first settlers of Pawtuxet. Other early arrivals from Salem were Nathaniel Waterman, Thomas Olney, Sr., John Throckmorton and Stukeley Westcott.

Angell and Wickes were servants of Williams and Smith. Benedict Arnold, later governor of the Colony, and William Carpenter, lived with William Arnold. Throckmorton and Cope lived with householders, the single men and servants who came in 1636 having been assigned lots later. This was the settlement which became known as Providence Plantations and which under the charter procured in England in 1643 by Roger Williams, for "The Colony of Providence Plantations," gave its name until supplanted by the King Charles II charter of 1663, to the group of settlements comprising Providence, 1636; Portsmouth, 1638; Newport, 1639; and Warwick, 1642.

By 1655, Newport had two-thirds of the population of all the settlements and was by far the richest town. The King Charles Charter, under which Rhode Island was governed from 1663 to 1842, recognized this and named the colony Rhode Island and Providence Plantations, the name it bears today.

In the three centuries since Roger Williams established at Providence the first government in civil affairs only—what has been termed "The first democratic commonwealth in modern times"—Rhode Island has remained distinguished for its individualism, a leader among the Colonies and in the later federation of States. It was first to rebel against the British Crown and its General Assembly passed at Providence, May 4, 1776, the Rhode Island Declaration of Independence, which set up this Colony as an independent state, two months before the passage of the Declaration by the Continental Congress at Philadelphia.

The anniversary of this Declaration has been selected by the State Tercentenary Commission as the date for opening the Tercentenary celebration which from May to October, inclusive will show by pageants, exhibits and exercises throughout the State, reminders of the glorious history of Rhode Island through the centuries, thus giving not only to thousands from other parts of America, but also to its own residents, a clearer idea of the development and the scenic and vacation attractions of one of the gems of old New England.

The Tercentenary observance is being directed by three bodies—the State Commission and a citizen's committee, whose work is State-wide and the Providence City Council Committee, arranging an elaborate celebration by Providence.

The Rhode Island Tercentenary Commission was created by the General Assembly at the Special May Session, 1935, "to plan, prepare, supervise and carry out a suitable observance of the three hundredth anniversary of the founding of this State by Roger Williams." Gov. Theodore Francis Green appointed Very Rev. Lorenzo C. McCarthy, O. P., President of Providence College, whom the Commission elected its chairman; John Nicholas Brown and Ira Lloyd Letts; Lieut. Gov. Robert E. Quinn appointed Senators Alfred G. Chaffee of Scituate and Joseph P. Dunn of Portsmouth; Speaker William E. Reddy appointed from the House, Representatives James H. Kiernan and Frank E. Ballou, both of Providence.

The Commission organized in August with election of Very Rev. Lorenzo C. McCarthy, O. P., as chairman and Horace G. Belcher as secretary. It has an office at Room 238, State Office Building. The State Commission plans include welcome portals on all State roads at the State border; information booths in the form of pioneer log cabins at convenient points on State roads; the placing of historic road markers at town intersections on State roads and to designate places of interest; the showing of an historic film, "Colonial Rhode Island" in public, private and parochial schools throughout the State; publication of an historic booklet "Rhode Island's Historic Background, with a Rhode Island Historic Calendar;" issuance of an official Tercentenary poster and mail sticker; and other features.

The Rhode Island and Providence Plantations Tercentenary Committee, Inc., is a citizen's committee organized in 1930 to aid in observance of this anniversary. It has committees in many parts of the State and through them has planned a series of pageants, exhibits and other events commemorating the anniversary. The committee is headed by Ira Lloyd Letts, chairman; Addison P. Munroe, Honorary Chairman; Arthur L. Philbrick, Vice Chairman and Treasurer; Percy Shires, Secretary. The Executive Board is: Howard V. Allen, Monsignor Peter E. Blessing, Miss Sallie E. Coy, Edward L. Coman, J. Winthrop DeWolf, Hon. Roscoe M. Dexter, Hon. Joseph H. Gainer, Hon. J. The Tercentenary Committee of the City of Providence, Rhode Island, was created in March, 1935 by the Providence City Council from its membership to suitably commemorate the founding of Providence in 1636 by Roger Williams. Councilman David A. Dorgan is chairman, the members being: from the Board of Aldermen, John J. Cashman, Frank J. Duffy, Walter S. Grant, Frank Rao, Rush Sturges; from the Common Council, William A. Cahir, Frederick B. Joost, Edward F. Moran, Peter F. Reilly, Frank Scoliard, Joseph Schlossberg, Joseph V. West.

On organization, it elected William C. Waugh, Executive Director.

The Providence City Committee is planning an elaborate series of events, including a number of representations during the summer months, of an historic pageant. It is being assisted by a number of committees whose membership includes representative citizens.

Police department has one hundred and eighteen officers, 259 patrolmen with five stations and four sub stations and one hundred and fifteen pieces of motor equipment including twenty-six motorcycles.

Providence was founded in 1636 by Roger Williams. Incorporated in 1832. The oldest bank in America and the first Baptist meeting house in the country are located in the city. Brown University, founded in 1764, and many institutions of the early eighteen hundreds are within the city limits. The first directory of names and addresses of persons located in the city was published in 1824.

Providence is the second city of New England in point of population, a fact of special significance, inasmuch as the figures of the United States Census Bureau credit the city with 252,981 inhabitants, yet its area is only nineteen square miles. This City is the trading centre for an immediately adjoining population of fully five hundred thousand people; furthermore, if we include an extended area, the population of which turns to Providence more than to any other city, that trading population is increased to seven hundred and fifty thousand. Recent statistical estimates prepared for the Census Bureau with a view to establishing boundaries for Metropolitan Providence place it eleventh in area among cities of the United States.

Many factors contribute in making Providence a great city in respect, not only to population, but to industrial activity. Situated as it is on Narragansett Bay with its deep channel and other superior water facilities, the city is in a position to call to its service transportation by water as well as by rail. The activities of the Port of Providence increase year by year and they will expand at a tremendous rate when there shall be established in the city elevators which can supply grain cargo to fill the bottoms of ocean steamers.

Providence is more than usually well provided with excellent public utility facilities. Its Gas Company is known as the most efficient in the industry in New England. Its highly efficient electric service has grown to very large proportions. The street railway system, now embodied in the Rhode Island Public Service Company, furnishes service not only within the city, but to many outlying points. Its telephone service is the equal of the best in the New England Telephone and Telegraph system, of which it is a part.

The densely populated industrial district of Providence, with its large population to be fed and clothed, is known in all parts of the United States as a distributing point of great importance. Because of the excellent educational opportunities offered, there is a large student population attending Brown University, Pembroke College, Providence College and various smaller private schools.

Providence is particularly fortunate in having a diversity of manufactures. It is not dependent on any one industry. The great industries which have distinguished the city for many years include textiles, jewelry, silverware, iron and steel. It has, for instance: the largest machine shop in the world; the largest finger ring manufacturer in the country; the largest file manufacturers in the world; the largest silverware manufacturers in the United States; the largest screw manufacturer in the world; one of the leading newspapers of the country, the Providence Journal. Back of these industries and supporting them is a great variety of products, large and small, that have a national reputation. Few cities in the United States send out daily so many small packages of so great a variety of manufactured articles as does Providence.

The city government has been carefully administered, hence Providence has one of the lowest municipal tax rates in the country, a low bonded indebtedness and numerous other advantages. Among the most important of these is the wonderful water supply now impounded in an area some seven miles from the city, and as large as the city itself, which ensures pure water for human consumption and a plentiful supply for fire emergencies.

Providence retail trade is prosperous, as it should be, in the centre of so great a population. Likewise the wholesale trade, which reaches out over an area extending into Connecticut, Massachusetts and other New England states.

Few cities have been more active in providing adequate facilities for the care of the sick and needy; its hospitals are equal to all demands. The municipality has been active in providing for its citizens those agencies, such as parks and playgrounds, that contribute to the promotion of life and health. The parks form the centre for annual events which attract hundreds of thousands of people for enjoyment and cultural development. Best known among these events is the Annual Festival of the Providence Festival Chorus in Roger Williams Park.

Providence is an attractive city in which to do business and to live in comfort and security. This is evidenced by its continued increase of population over that which follows a steady birth-rate, due to the coming from all parts of the country of investors of both capital and labor. Newcomers are accommodated in Providence as in few other cities with publicly conducted enterprises which ensure good health, excellent educational opportunities, good living conditions and satisfactory returns.

For those who are interested in obtaining general information or detail particulars regarding the municipality and business opportunities it is recommended they write to the Providence Chamber of Commerce.

You may be remembered a hundred years from now

It seems a long time in this era of change but it is a fact that the influence of our forefathers is often carried on for generations.

Especially in business and financial affairs is the record of the past liable to be of vast importance to the present.

The silent testimony of old directories is often accepted by courts as valuable evidence and too much care cannot be taken by business men to insure that all such records are accurate and complete.

Unlike most other mediums for advertising, the Directory is kept on file in many law and public libraries for years after its immediate usefulness as an address book has disappeared and it becomes a permanent record of the firms and individuals listed therein.

A very small sum insures adequate representation from year to year and such record may prove of great service at some future date.

Locating Missing Heirs Finding Lost Persons

This is only one of the many offices that a modern directory successfully fills

The Directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

179 LINCOLN STREET BOSTON, MASS.

PROVIDENCE STREET DIRECTORY

Copyright, 1936, Sampson & Murdock Co., Boston, Mass.

Giving the location of each street, and showing what other streets and places run from it or across it, with the numbe at which they intersect. From this list, the location of any number on a street can be easily ascertained; for instance, wishing to know at what part of Westminster Street No. 1129 comes, you look at Westminster Street and find that Knight Stree runs from 1069 and Bridgham Street from 1191, showing that 1129 Westminster Street would come about half-way between Knight and Bridgham Streets.

"Something Different" *"The New Idea"*

Highland Memorial Park

We present to the people of Rhode Island a unique answer to a delicate problem

Eclipsing the old idea of neglected, disarrayed monumental grave-yards with the new perpetually cared for Burial Park, having no monuments of any description. Small granite or bronze markers, with the necessary engraving are used at the head of each grave, laid flush to the ground. Here is symmetry and peaceful beauty which cannot be obtained under the old conception of burial grounds.

Lots may be purchased on easy terms. To be appreciated they must be seen. We are always ready to help you with your problem of making a satisfactory selection. Our prices and terms make this service accessible to all.

For further information apply to the office at the Park or to the main office in Providence.

How to Make This Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity.

Put—"We are listed in the Directory" in all your copy.

Tie up your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the listings applicable to your business. The phrase will stick long after the advertisement has been mislaid and people will get in the habit of looking for your name when ready to purchase supplies which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

A Buyer Wants Information

Does your copy tell him more than he already knew when he turned to the page bearing your advertisement?

Purchasing agents often tell us they find a concern specializing on just what they are looking for by turning to these descriptive spaces, but that in many cases insufficient information is given.

Whatever helps the buyer to find what he wants means business for the seller. Anyone referring to a directory advertisement does so because he is already **interested.** Therefore space need not be used to attract **attention** or **create desire.**

Treat the reader as you would a person coming directly to you, inquiring about your service or product with the idea of doing business. Don't let your prospect turn away from your ad without finding out why you are equipped to serve him.

Modern Conveniences

Lost, sometimes, amid the more spectacular conveniences, such as the auto, telephone, radio, or aircraft, yet the

CITY DIRECTORY

is probably the greatest convenience of this or any other age. Ponder, for a few moments, on the service rendered by the city directory. It would not be stretching matters to say that it can accurately answer a million questions about the municipality it represents. Familiarize yourself with this truly wonderful book. Learn how to use it to the greatest advantage. Study the index and miscellaneous information section for a few moments. The gold mine of local facts and information will surprise you. You will learn things about your own city that you never knew before.

The A-B-C of Insurance

Against Business Loss Means That You Must be listed In The Great and Only Real Buyers Guide—The City Directory—The Publication That Lists Them All.

If you are not Properly listed you are missing the opportunity that is presented to every business concern to become a stockholder in this great enterprise on a co-operative basis. The dividends are the service and low prices. It is the greatest illustration of the socialistic principle of doing business that there is in our modern society. The City Directory is the book of the people and places every individual in the city on the same basis. This gives the small business the same opportunity as the large business—a truly democratic principle and a rare one today.

Give this matter your careful attention and be listed in the Great Information Bureau of the City where it can be instantly located. It is a card index system of the city with four different ways of indexing and nothing with a name and address exists that cannot be readily found by any person who knows their A-B-C's.

POWER OF ADVERTISING

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you.

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

What Is a Live Prospect?

He is a man with a lot of questions in his mind. He wants to know Where and What and Who and How

Thousands of live prospects are looking in directories daily to find out

Where they can buy something
What they can get for their money
Whom they can buy it from
How they can get it

The time to sell a prospect is when he is alive. Make this book your Salesman to live prospects.

How to Make This Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. **Put—"We are listed in the directory"** in your copy. Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit

WHO ADVERTISE IN THE DIRECTORY

are the up-to-date, wide-awake people of the community. Read their advertisement — you may find therein

SOMETHING YOU NEED

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9 To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

The Home of Good Directories

COMPILING DEPARTMENT

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Our experience of over eighty-five years—our reputation for accuracy, our large force of experienced help and our complete equipment for the work, all guarantee the best in directory compilation.

ADVERTISING DEPARTMENT

Put—"We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly registered in all branches of its industry is wise. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Ask Sampson & Murdock Company
about the City Directory, the book of many uses.

INFORMATION

in the mass seems like a dull proposition but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use of it however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much.

In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

CONSULT YOUR DIRECTORY

Accurate Information is worth all it costs.

The Guide Post to the City

Is Never Further Removed From You Than the Nearest City Directory

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a privilege card will be sent you upon request to

PROVIDENCE GENERAL DIRECTORY

1936

Copyright, 1936, Sampson & Murdock Co., Boston, Mass.

Wife's Name—Appears in parenthesis following husband's name when obtainable.

Removals—Against names showing removals from the city, the post office is given; if into another state, both the post office and state are given.

Deaths—The date of death of citizens whose names appeared in the Directory, dying during the past twelve months, is recorded against the name in the present book.
